EDUCATION

University of California, Los Angeles, *Department of Computer Science*

Master of Science in Computer Science

Los Angeles, U.S.

Sep. 2016 - Jul. 2018(expected)

Tsinghua University, *Department of Electronic Engineering*

Bachelor of Engineering in Electronic Engineering

GPA: 91/100

Beijing, P.R. China

Aug. 2012 - Jul. 2016

ETH Zürich, *Department of Information Technology*

Exchange Student, International Academic Program

GPA: 5.50/6.00

Zürich, Switzerland

Sept. 2014 - Feb. 2015

PROFESSIONAL & PERSONAL SKILLS

Mathematic: Familiar with calculus, linear algebra, probability theory, discrete mathematics, algorithms.

Computer Capability: Skilled at C/C++, Python, MATLAB.

Language Proficiency: English: Toefl 114; German: B1 Level(MCER).

SELECTED PROJECTS & INTERNSHIPS

Yart-cpp, yet another ray tracer in C++

Sep. 2015 - Present

- Implement direct lighting and bidirectional path tracing.
- Lambertian, specular, refraction and Cook-Torrance BRDF are supported.
- Use OC-Tree to accelerate complex mesh.
- Repo: <https://github.com/seanzw/yart-cpp>

Light C-Compiler in C#

Dec. 2015 - Present

- Support C99 standard and generate x86 assembly.
- Handwritten regular expression, NFA scanner generator and parser combinator library.
- Scanner generated by handwritten scanner generator.
- Parser generated by handwritten parser combinator library.
- Semantic analysis that checks types and symbols;
- Code generation to x86 assembly on Windows (can be directly used by clang assembler)
- Repo: <https://github.com/seanzw/lcc>

OpenCL@FPGA (Undergraduate Thesis)

Sep. 2015 - Jun. 2016

- Supervised by Assoc. Prof. Fei Qiao, Tsinghua University
- Use OpenCL to implement CNN on Xilinx Alpha Data FPGA, and accelerate with pipeline.
- Paper:

MicroPython on FPGA, Dept. EEE, Imperial College London

Jul. 2015 - Aug. 2015

- Supervised by Prof. Peter Y. K. Cheung, Head of Dept. EEE.
- Port MicroPython on Altera DE0-Nano-SoC FPGA.
- Build FFT example with DMA.
- Repo: <https://github.com/seanzw/MicroPythonFPGA>

Computer Vision Engineering Internship, DeepGlint, Beijing

May. 2015 - Jun. 2015

- Work in the computer vision group to develop a "mirror" demo for a skeleton recognition system.

AWARDS AND HONORS

Second-class Scholarship for Excellent Freshmen, <i>Tsinghua University</i>	<i>Oct. 2012</i>
Wang Zhaosheng Scholarship for Excellent Studeng from Dongguan, <i>Wang Zhaosheng Foundation</i>	<i>Oct. 2012</i>
Second Prize in 30 th Chinese National Physics Contest(non-physical group A)	<i>Dec. 2013</i>
Ranked No.5 in National Matriculation Test(Science), Guangdong Province (5/600,000)	<i>Jun. 2012</i>

EXPERIENCE

Courses in CS

- Compilers by Alex Aiken, Stanford University
- Operating System Engineering, MIT
- Programming Languages by Dan Grossman, University of Washington
- Machine Learning by Andrew Ng, Stanford University
- Algorithms Part I & II by Robert Sedgewick, Princeton University
- Introduction to Computer Science and Programming, MIT
- Introduction to Probability, MIT
- Advanced Computer Graphics, Tsinghua University
- Computer Networks, Tsinghua University
- Software Engineering, Tsinghua University
- Computer Graphics (5.25/6), ETH Zurich
- Computer Vision (5.5/6), ETH Zurich

Children Education Program Volunteer, *Dream a Dream, Bangalore, India*

Jul. 2013 - Sept. 2013
